# ELLIE CAMBAR ARTISAN MADE PRODUCTS

Ellie Cambar is an online store offering unique artisan made accessories. Select artisans from Honduras and Mexico produce handmade accessories that combine details from Latin America, Asia, Africa and other countries to make unique jewelry, handbags and clothing.

Most of the artisan handbags come from Valle de Angeles a beautiful small town in Honduras. This town is located 22 kilometers from the capital city of Honduras, Tegucigalpa.

Valle de Angeles is part of who I am and where I was born. Many Hondurans visit this town as a weekend getaway. As the name states, it is a small town nestled between pine covered mountains and green landscapes that almost look like it has been touched by angels.

My passion is to make Valle de Angeles artisans and landscapes known to the world. After living in the United States for 32 years and traveling around the world for more than 20 years, I would like people to know the quality of our handmade products, especially the handmade bags, belts and other leather accessories made in Honduras.

Many of the leather products are geared towards traveling connoisseurs. The products are inspirations from countless trips around the world. Most of the products have details and pieces that make them unique due to the handmade manufacturing and textiles from other countries.

In the future, we will be adding silver jewelry and ethnic clothing. My travels around the world have helped me spot the best products from the best artisans. Only the highest quality silver jewelry and embroidered clothing will be offered.

Most of the silver pieces will come from the town of Taxco, Mexico, a very picturesque town with small paved streets, no sidewalks and houses painted in white. The silver jewelry in this town is known as some of the best in the world.

Owner/Founder  
Ellie Cambar

We will also add embroidered clothing from Mexico, specifically, from the areas of Oaxaca and Chiapas. We will offer modern cotton dresses, skirts, blouses and shorts that will have a modern touch with handmade embroidery.

I want all the accessories and clothes to bring something unique to the modern woman who likes to travel and explore the world. Each garment of clothing, handbag and jewelry will tell a story of someplace far away where we all would like to travel. My idea is to provide first class quality products for your personal style.

Another main reason for the online store is to help artisans from around the world to make a living. In countries like Honduras and Mexico it is very important to provide jobs so people can make an honest living. By purchasing artisan made products you are also helping them and their families with jobs, and strengthening local economies throughout the world.
